project.c

**repository**

A diagram showing a 'repository' container. Inside, there is a '.git' directory (represented by a blue rectangle) and a 'project.c' file. The '.git' directory contains two entries: 'initial project.c' and 'fixed bug project.c'. A white house-shaped icon labeled 'commit' is positioned in front of the '.git' directory. The 'project.c' file is located below the '.git' directory.

**.git**

initial project.c  
fixed bug project.c

**commit**
